

We cannot be revolutionaries concerning only the one social structure we do not accept, but must be so in all fields, including the scientific one. The dominating order we want to destroy has roots everywhere, therefore should be attacked everywhere.

Pierleone Porcu

Anarchist Babis Tsilianidis, remains incarcerated in Korydallos prison, since 22/01/2013, sentenced for the robbery, that took place in the financial department of AHEPA hospital, in July 2010.

Him being sentenced solely based on a DNA sample found on a bandana near the area of the robbery, marked the beginning of a new strategy of the State which brings the full co-operation between the techno-scientific complex, the judiciary and the cops on the surface and which is an open window to the repressing dystopia of tomorrow.

On 5/06 his appeal will be trialed, in order for the sentence to be revoked and for the comrade to be released.

Our answer to the full-scale attack of dominion is the fire of anarchist insurrection and the solidarity to the imprisoned fighters.
